

Lozenges for Confluence

Contents

- 1 Introduction
- 2 Macro
- 3 Using It

Introduction

A lozenge is nothing but content wrapped in a box with background color.

Macro

Simple text lozenge:

```
## Macro title: loz
## Macro has a body: No
## @param text:title=Text|string=string
## @param color:title=Color|type=string|required=true|default=#0000ff
## @param textcolor:title=Text
Color|type=string|required=true|default=#ffffff
<span style="background-color:$paramcolor; color:$paramtextcolor; border-
radius:3px; padding:0px 3px 2px 3px">$paramtext</span>
```

Make sure to select "No macro body" in the "Macro Body Processing" section.

Using It

Here are some lozenges:

- **New**
- **Updated**
- **Warning**
- **Danger**
